

2025 *Distinguished* GRADUATE

ADRIANNA BOSQUEZ | Administrative Assistant

Adrianna Bosquez, born and raised in San Antonio, is a devoted wife, mother, and determined individual with a passion for personal growth and perseverance. At 36 years old, she has been married for 11 years and is the proud mother of two children: Sharaiah, 19, a pre-nursing student, and Adrian, 12.

As a first-generation college student and a nontraditional learner, Adrianna has overcome significant life challenges, including teen pregnancy, to pursue her educational and professional aspirations. Her journey is fueled by the desire to set a strong example for her children and to show that no obstacle is too great when matched with resilience and determination.

With 15 years of professional experience at Southwest Research Institute, Adrianna has been motivated by the support and encouragement of her team, drawing inspiration from mentors who have pushed her to aim high and stay focused.

She will graduate in May with an associate degree in administrative assistant and plans to continue her education by pursuing a bachelor's degree in business administration through an online program. Her long-term goal is not only to advance her career but to inspire other women — especially those who have faced similar struggles — to believe in their potential and embrace the power of persistence.

Adrianna's greatest source of pride comes from the example she's setting for her family. Her journey is a testament to the strength found in patience, hard work, and the unwavering belief that success is possible at any stage in life.

“Success is the sum
of **small efforts**,
repeated day in and
day out.”

— Robert Colliert
