

2025 *Distinguished* GRADUATE

TANIA MORGAN | Architecture

Tania Morgan, 21, was born and raised in San Antonio, growing up in the same home her entire life. As a CODA — a Child of Deaf Adults — Tania brings a unique perspective and deep sense of empathy to everything she does. Her background has shaped her into a thoughtful, determined individual with a strong sense of identity and purpose.

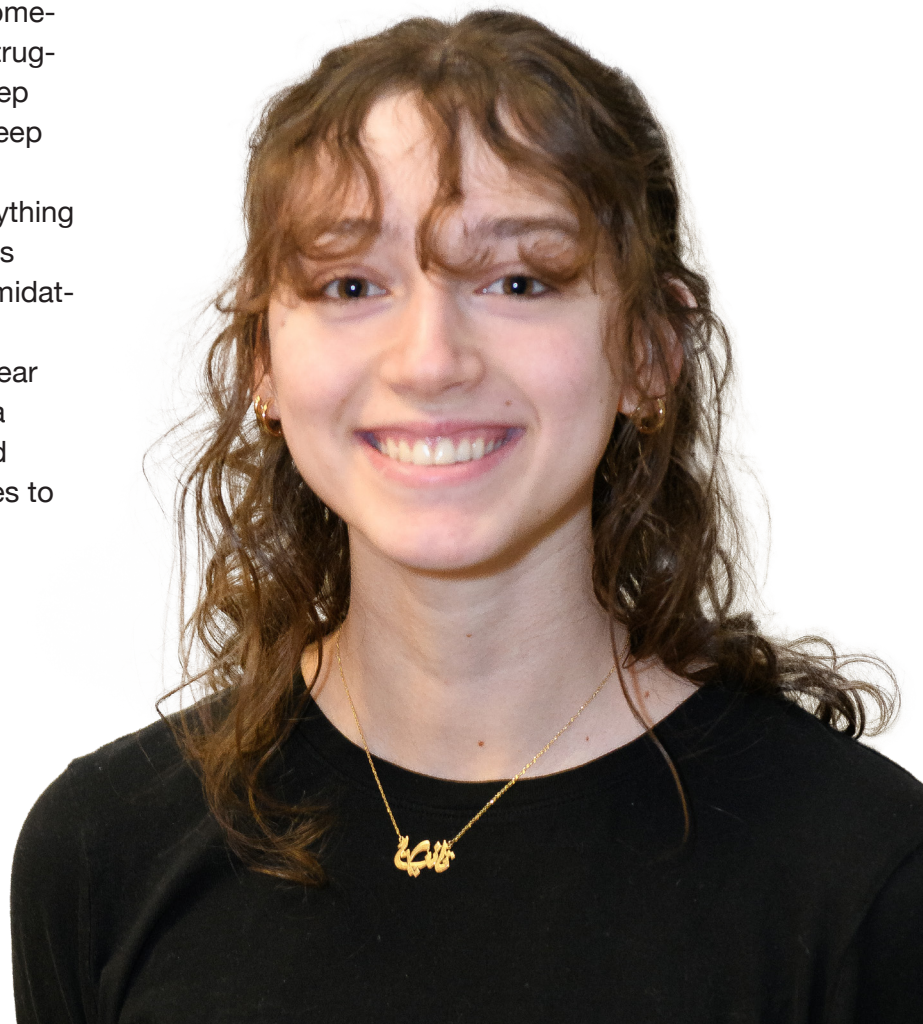

Her journey into architecture has been one of both growth and self-discovery. Through challenges and triumphs, Tania has learned that perseverance and passion are key. She believes that if you want something badly enough, it will show — even in the struggle. Her mindset is rooted in resilience: if you keep going, even when things are hard, you'll know deep down you're on the right path.

Tania also believes that anyone can learn anything with enough dedication. To her, hard work always pays off. Over time, the things that once felt intimidating begin to feel natural — like breathing.

With a strong foundation of support and a clear vision for her future, Tania is on a path to make a lasting mark in the world of architecture, inspired by where she comes from and who she continues to become.

“Everyone is a genius. But if you judge a fish by its ability to climb a tree, it will live its whole life believing it is stupid.”

— Albert Einstein
